

## Community Acquired Pneumonia Patients Minimal Documentation Requirements and Additional Quality Indicators

### Documentation Requirements

- O<sub>2</sub> assessment with pulse oximetry/ABG within 24 hours of arrival.
- Pneumococcal vaccine status assessed and, when applicable, vaccine given.
- Influenza vaccine status assessed (October through February) and when applicable, vaccine given.
- Smoking cessation advice given (h/o smoking in past year).

### Additional Indicators

- Initial turn around time is <4 hours from time of arrival to antibiotic administered.
- Blood culture, when ordered, collected prior to first antibiotic given.

**Please place in front of progress notes section.  
This is a reminder for documentation requirements and additional quality indicators only and does not need to be signed by physician or nursing.**

**Not a Permanent Part of the Medical Record**
