

Congestive Heart Failure Patients Minimal Documentation Requirements

Physicians

- Documentation of LVF assessed prior to arrival, during hospitalization, or planned after discharge
- ACEI/ARB prescribed at discharge
or
- Reason for not prescribing ACEI/ARB documented
- Smoking cessation advice given (h/o smoking in past year)

Nursing

- Discharge instructions that address:
 - Activity Level
 - Diet/Fluid
 - Medications
 - Follow-up with physician
 - Weight monitoring
 - S/S worsening heart failure

**Please place in front of progress notes section.
This is a reminder for documentation requirements only and does not need to
be signed by physician or nursing.**

Not a Permanent Part of the Medical Record
